Teachers: Emailed upon confirmation | Quarantine and participate in distance learning (if possible) until a negative test is received | Student can return upon receipt of a negative test or upon completion of a 14 day quarantine and no symptoms |
Can we switch between Volusia Live and the Traditional Model? If a student in either the Traditional Classroom or Volusia Live would like to switch to the other option altogether (one-time switch), that will be allowed by the school, but ideally that switch would be done at the end of a grading period. NOTE: temporary moves from the Traditional Classroom to Volusia Live will be allowed if and when students are quarantined.

What is the plan for educating students who may need to be quarantined? If a student needs to be quarantined, they will shift over to the Volusia Live format of instruction during their time at home and will be able to continue instruction via live streaming.
