November 6, 2019

Dear Parents:

We are so excited that you and your child are part of our Sunrise family for the 2019-2020 school year. There is much to celebrate this year with the increase of our student achievement scores on the Florida Standards Assessment. This past school year we accomplished much with our work to ensure that all our students received a high-quality education experience with a focus on standards-based instruction and the implementation of our Leader In Me Practices to support Social Emotional Learning.

This year we will continue to focus our attention of high leverage strategies that will support all our students in meeting grade level standards. Our Vision of Building 21st Century Leaders will continue as we create a Strong Culture for Learning and focus on teaching our students the practices of 7 Habits of Happy Kids which will support our students’ Social Emotional Learning. Our teachers and school staff are committed to increased academic achievement, problem solving, and to fostering strong relationships with parents and students. As a Family, we are committed to ensuring that all students have access to a quality education that is equitable for all.

I will ask you to commit to having your child at school every day, on time, and ready to learn. I will ask you to get involved with as many opportunities available at our school. I will ask you to make the time to read to your child daily to continue to support literacy.

We are thankful that you have entrusted your child to our Sunrise Family. With that honor, we will ensure your student is given every opportunity to be successful.

Warmest Regards,

Efrain Alejandro
Principal

Living the Vision: Building 21st Century Leaders
